

Privacy. Precisely positioned.

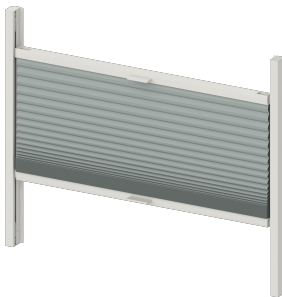

Custom Made in Germany

TOP-DOWN BOTTOM-UP HONEYCOMB SHADE

No sheer infill. No cords or support bands crossing your open view.

SIDE-GUIDED PRECISION

Made for European tilt & turn.

Glass-mounted shades move with the sash when the window tilts for ventilation or turns inward. Slim side rails hold the shade close to the glass; adhesive mounting avoids drilling into the frame.

An elegant alternative to traditional TDBU.

Move the upper and lower rails by their aluminium grips to place privacy where you want it. Keep clear glass above, below or both, with support cords concealed within the side-guided system.

MADE TO MEASURE

10-60 in wide / up to 96 in high
61-72 in wide / up to 78 in high
Compensator required at 54 in+;
recommended from 47 in.
