

Flexible privacy. A tailored fit.

Made to measure for windows & doors

TOP-DOWN / BOTTOM-UP

11-8220 / HONEYCOMB

MOUNTING DETAILS

Inside

Angle bracket

Adhesive set

Freely movable light control. Mounting options for the way you build.

Privacy below. Daylight above.

Move the upper and lower rails independently to position privacy where it is needed. A tensioned design suits compatible tilt-and-turn windows and glazed doors. Choose honeycomb or pleated fabric.

Adhesive set. No drilling.

Mount directly to the glass with an adhesive set, with or without side guides. The guided option supports the fabric near the operating rails when the window tilts. Remove the shade for window cleaning.

CHOOSE THE MOUNT THAT FITS

Screw-mounted options

Inside / ceiling: footplates in the glazing bead.

Outside: angle brackets on the frame.

Glazing-bead front: brackets for shallow beads.

Drill-free options

Adhesive set: glass mount, with or without side guides.

Clamp brackets or window clips: frame mount.

Adhesive brackets: for compatible PVC or aluminum frames.
